

X. Forestadent Symposium

Málaga, 03rd - 05th October 2019

Hola, Bienvenido a Málaga

Dear Doctor

We already have a long history of FORESTADENT symposia. Now, in the 10th edition of this fantastic event, we decided to go back to the country where it all began – Spain. In 2007 we celebrated our 100th birthday and we had our first symposium on the Spanish island of Mallorca. Back then the symposium was of course much smaller, but attendees from all over the world asked for a revival. So we continued and developed a tradition which had its last stop in our home town Pforzheim in 2017. Beautiful places like Athens, Paris, Lisbon and Abu Dhabi were on the list.

The 10th symposium in Málaga (Spain) will be an exciting meeting. It will be a scientific congress, a journey through digital and analog topics in orthodontics and a place for excitement, joy and quality moments with colleagues, friends and partners.

We promise you an experience you will never forget!

Yours sincerely

Stefan Foerster

Welcome to Málaga

A vibrant city in southern Spain – gorgeously located in the region of Andalucía. Beautiful beaches, a maze of gardens and fountains, a place with magic history and the famous Alhambra close by (reachable by car in only one hour), superb museums and relaxing Mediterranean vibes.

All this is Málaga – the heart of sunny Andalucía.

The sun loves Málaga

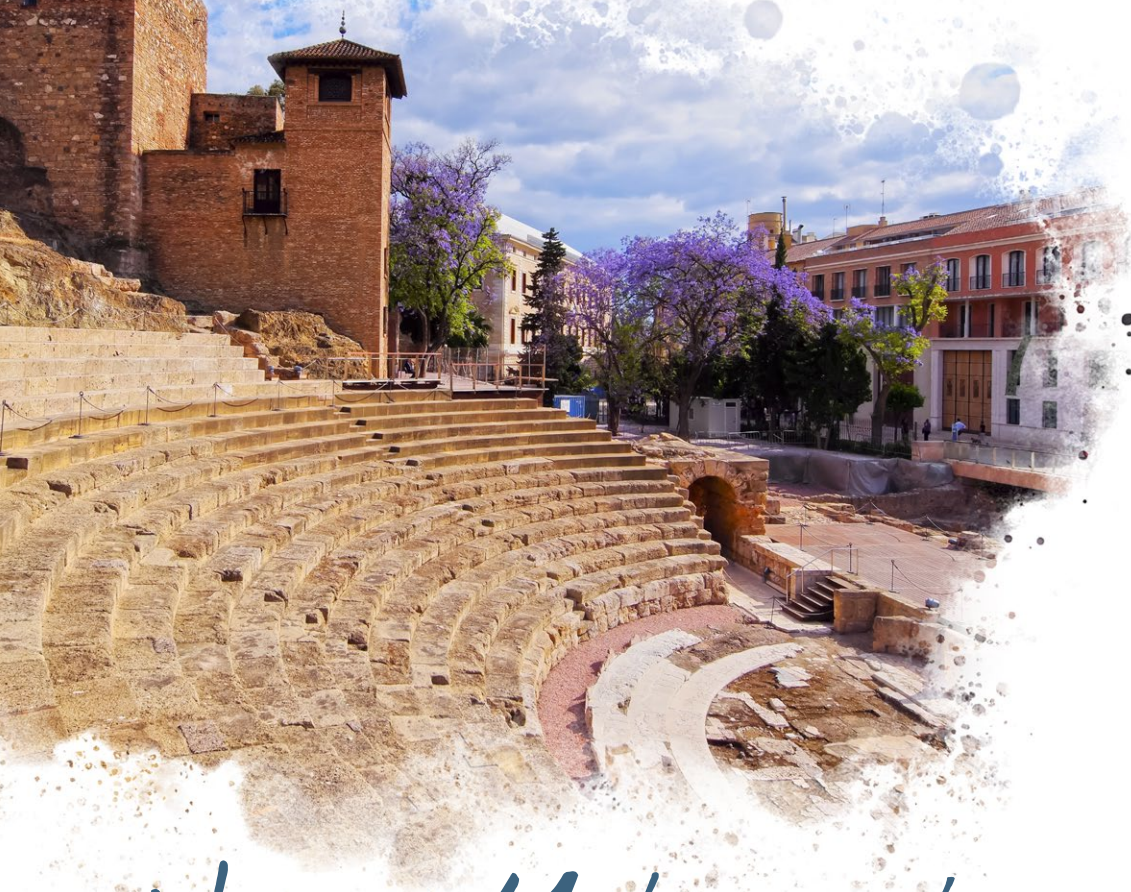

Málaga the gateway to the Costa del Sol, the coast of the sun. More than 320 days with about 3.000 hours of sun. But due to the sea, the local climate is mild and agreeable.

Gazpacho, Paella and Tapas

There are several few names which typically stand for the region and reflect the history of this piece of land. The Romans and later the Moors influenced the local Spanish cuisine which then was and nowadays still is combined with tomatoes and peppers brought from the adventures of Christopher Columbus. Experiencing Málaga does also mean to experience the local food which is unique in the world. Fresh sea food, stews, local jamónes (hams) and nibbling tapas invented in this region are a must try! ¡Buen provecho!

Tapas – hot or cold, simple or sophisticated. Tapas are more than just small appetizers. It can be accompanying a glass of beer or wine, it can fill the gap between lunch and dinner or being a starter, but always it is part of the social life and brings people together. Visit a Spanish bodega (tapas and wine bar) and dive into the local lifestyle and enjoy this culinary piece of art which wonderfully fits to a glass of fino (sherry from Andalucia).

Historic Málaga and a region full of history

Dominated by the Roman Empire and almost 800 years under Moorish rule is the foundation for a historically unique region. A Roman amphitheater next to restaurants and bars, a Moorish citadel from the 11th century (Alcazaba) on Mount Gibralfaro overlooking the port of Málaga and a Renaissance style cathedral in the city of Málaga. Just a short drive north of Málaga you will find the impressive fortress and palace Alhambra in Granada (reachable by car in only one hour).

*"Love is the greatest
refreshment in life"*

- Pablo Picasso

In modern art there is no way to miss the name Pablo Picasso. Born in Málaga the artist influenced art movements all over the world in the 20th century. Nowadays he is the most famous and successful artist in history. Don't miss the Museo Picasso (Picasso museum) with its

impressive collection of almost 300 works donated by his family. Art lovers should also enjoy the Pompidou Centre, a brightly coloured glass cube with works of many other famous artists of the 20th century.

Alhambra - "The Red One"

Red clay gave the name to this wonderful masterpiece of breathtaking architecture. The UNESCO world heritage site was built during the 13th and 14th century and forms the medieval city of Granada. The beautiful gardens, impressive palaces and perfectly preserved art and decoration are unique in Spain and in the world.

Gran Hotel Miramar Resort & Spa

This 5-star grand luxury hotel is a wonderful oasis in the centre of Málaga, which stands for high quality and excellence. Located close to the sea it is the best place to start discovering Malaga´s culture, night life and of course the Costa del Sol. We chose this recently reopened hotel with its magic history of almost 100 years for our pre-congress course and the get together. Celebrities like Rita Hayworth, Orson Welles, Elizabeth Taylor, Ava Gardner, Ernest Hemingway and many more frequented this location in the past.

Enjoy a luxurious stay in Málaga and if you chose the Gran Hotel Miramar as your favorite hotel we can offer you special conditions in our hotel contingent.¹

Chance to save money:

We offer an early bird discount on your hotel and symposium booking if you register and pay by 10th of June 2019.

Get together

For us the Gran Hotel Miramar will be the start of the 10th symposium. Here we will welcome you to our pre-congress course „digital orthodontics 2025“ and our get together on the 3rd of October 2019.

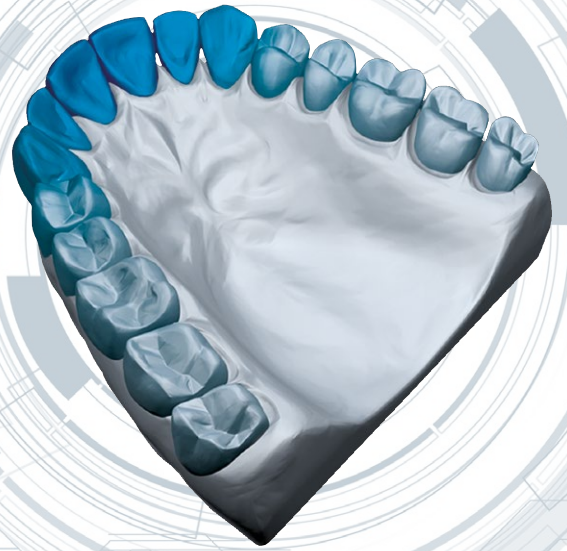

Pre-Congress "Digital orthodontics 2025"

Orthodontists nowadays are being flooded with information and promotions on digital orthodontics. Many systems claim to be the answer to everything we have been waiting for. Claims of simpler workflows, easier treatment planning, reduction of time required for treatment planning, simpler orthodontics and faster treatment can be found in many publications and advertisements.

In this one-day course Dr. Björn Ludwig and Dr. Lars Christensen will share their experiences with digital technologies and how we can utilize these to make our treatments better for our patients and for the clinicians. The course will detail some of the available hard and software solutions and the presenters will share their views on the usability of systems. Dr. Ludwig and Christensen have both been early adopters of digital technologies and have experienced many of the problems associated with starting up with digital orthodontics. They aim to share both positive and negative experiences from their trials with 3D technologies.
